Guest registration workaround (we will fix this next year)

There are two paths to register guests

Option 1 (If your company allows it):
- Register yourself with guests
- Pay with company card

Option 2 (If your company does not allow paying for guests):
- Register yourself individually with company card
- Pay with company card
- Use the link you get in your acknowledgement email to re-load and adjust your registration
- Go through the registration process again using this link until you get to Guest registration
- Add Guest(s) (8 clicks on the Next button to get to this spot)
- Pay with personal card

We apologize for this kludge – we will fix the website next year.
